done to bring the accounts to the current

2. The system of accounts and the method and quantity of work in the Depot Imperial Service Lancers were scrutinised by my Office Assistant and he reports that the Depot Office is short of hands and that there is much work to be got through.

3. In this Connection I forward herewith a Copy of report No. 673 dated 30th November 1916 from the Officer Commanding Depot Imperial Service Lancers together with the enclosures (in original) showing in detail the quantity of work that has to be turned out at present and representing that the employment of 5 more hands on Rupees 30/= each is necessary to get through the work satisfactorily.

4. I am however of opinion that the existing number of hands at the Depot viz 8 would quite do for getting through the current work at the Depot; but to clear the arrears of work there it is absolutely necessary that at least 3 extra hands on Rupees 30/= each per mensem should be employed for a period of Six months to clear the arrears and bring the accounts to the current.
